TORGING OF TAX RECEIPTS IN BROOKLYN.

Investigation yesterday by Brooklyn officials of the forged receipts for taxes which J. A. Hopper, of No. 75 Woodbine-st., discovered when he saw that his property was to be soid for arrears of taxes. Shows that the case is far more serious than at first supposed. Mr. Hopper gave two checks to his person for \$7.39 and \$5.09 respectively, for the payment of his taxes and received what purported to be receipts bearing the stamp of Tax Collector Tanner, who held office at that time. Yesterday Mr. Hopper's nephew, who is a lawyer, called on Corporation Counsel Jenks and Police Justice Walsh, and demanded an investigation to clear him from any suspicion of wrongdoing. Hased that he had paid the money at the fax office and had secured the receipts there. Afterward Corporation Counsel Jenks consuited with Mayor Whitney and with Police Superintendent Camobell. It was understood that a warrant was issued, but who, it was for was not ascertained. Detective Zundt came to this city but returned to Brooklyn with the information that the man he wanted was gone. Deputy Tax Collector Rushmore stated that the stamp upon the forged receipts is larger than the one in use in the office and ink of a different color was used. The bogus stamp also had the name "James Tanner" in the ovai ring while the genume stamp had not, and the name of the collector was put on the lower corner of the receipt. A duplicate of the genume stamp could be made for seventy-five cents.

Corporation Counsel Jenks said last evening that the core in was put on the lower corner of the receipt. A duplicate of the genume stamp could be made for seventy-five cents. FORGING OF TAX RECEIPTS IN BROOKLYN.

plicate of the gennine stamp could be made be seventy-five cents.

Corporation Counsel Jenks said last evening that the matter was being fully investigated and he thought likely that there would be some sensational developments in a short time. When asked if the investication covered the employes of the Tax Department he said that a wide range was being given to it and every detail was being followed up. While similting that a warrant had been issued he would not say for whom it was intended. Up to a late hour last night no arrest had been made.

block bounded by Broadway and Nassau-st., Pine
and Cedar sis. with the exception of the corner

the Broadway front practically remodelled. A
large hall will run through from Broadway to

WHY MRS. HUSSEY WAS ARRESTED.

Mrs. Margaret Hussey is a widow, renting rooms over the liquor store of August Schrieber, at No. 29 Mulberry-st. In the Tombs Court yesterday she was charged by Schrieber with using bad language. Justice O'Refliy sent her down stairs for examination to-day. It was said that on March 28 she saw Schreiber and two other men beat an unknown man in the hallway. She remonstrated against this treatment, and told Schrieber that a man who spent his money in the barroom deserved better treatment than a beating. Some one cent a story to Police Headquarters, and Mrs. Hussey states that the cause of her arrest was due to the suspicion that she was the cause of the complaint. She states that she has been served with a warrant of dispossession by Schrieber.

About thirty boys and girls passed yesterday morning through the entrance to the octagonal building at Madison ave, and Fifty-ninth-st. which holds the panorama of the naval battle between the Merrimac and Monitor. When they came upon the platform which represents Newport News, they broke out into voluble exclamations. They asked questions so fast that no one could answer them with the panees necessary to take breath. The children did not have to pause o take breath, for not one of them uttered a sound. They were the pupils of Mrs. Le Prince's art class of the New-York institute for Deaf Mutes, Washington Heights, and the words they uttered flowed from the tips of their dingers instead of from their lips. Their power of sight was remarkably acute and they set to work with a will to unravel the mystories of the illusions of the panorama. Although delighted with the naturalness of the effect, they had less difficulty than an ordinary observer in detecting which handle to the wheelbarrow was material and projected from the canvas and which w-a painted on the wall. The class was seated on the raised part of the platform, Dr. Isaac L. Peet, superintendent of the school, taking ais place in front of them mear the railing, while Halleck Welles stood behind them and explained the panorama, with brief pauses to silow Dr. Peet to nearly upon the pauses to silow Dr. Peet to nearly upon the defence having promised to proceed them as rapidly as possible.

The Hoffman House committee, which undoubtedly instigated the article, would do well to remember that the money to pay the expenses of the last general election in Ireland was collected and forwarded to Parnell through the League organizations in this country, and if he had been waiting for the aid of the rich Irishmen who composed the Hoffman House committee to defray the expenses of that great contest, freind would to day have no eighty-six members and neither Gladstone nor the British people would be talking of Home Rale or making ready to grant it.
